

Kelsey Una

Artist Statement:

Representational artwork is my main focus, but I also enjoy experimenting with a variety of media to open my eyes to new ways of bringing my visions to life. Whether it _s painting the beauty and expression of a face, the pleasant stitching together of materials or photographing a certain striking moment, helping and allowing the viewer to create a personal feeling is the main purpose for my artwork. I am directly inspired by my surroundings, the people in my life and the relationships among them. I often like to include symbolism or subtle changes to my subject matter in order to further suggest these emotional connections and associations. My artwork isn't only a window into who I am, but into my view on humanity.
