

**Louise Sutton**

**Artist Statement**

I have been fascinated with art all of my life. My approach to painting is largely intuitive. These days I find myself striving for abstraction in combination with ideas and emotions about the landscape and/or humanity.

I am amazed by the art making process- the energy and hope that comes with the birth of a new idea, the struggles in creating and the difficult emotions therein. I am always seeking that quiet rare place of contentment that arrives when a piece fully resolves itself on the canvas.
